### THE SPECULATIVE MARKETS.

Wheat Nervous and Higher, But Traders Bearishly Disposed.

THE VISIBLE SUPPLY MELTING.

Corn Inactive With Prices From Steady to Firm-Oats Nearly Stationary-Cattle and Hoge Active.

#### CHICAGO PRODUCE MARKETS.

CHICAGO, July 8 .- [Special Telegram to THE BEE.]-Wheat was nervous and higher to-day. The trading crowd was bearishly disposed most of the day and several times the market got started down, but the declining tendency was often checked, and the market eventually made a substantial gain and held its ground near the top. The situation is not favorable to lower prices just at the moment. The Northwestern crowd is in a critical and precarious condition. The receipta of new wheat at the primary winter wheat points are disappointingly small, and the visible supply continues to decrease at a rapid rate. It was reduced 13,500,000 bushels last week and is now 14,000,000 bushels, of which probably 2,000,000 bushels cannot properly be classed as belonging to the merchantable grades. Already reduced to merger limits, the visible supply promises to decrease for the remainder of the month, and it would not occasion surprise to see it go down to 10,000,000 bushels. Then the foreign markets are looking up, and even "latest cables" confirms the news previously telegraphed of "hardening" values. The crop outlook the world over no longer supports the theory that there is going to be over an average yield. On the contrary the testimony is getting convincing that it will be under the average. These are the things that discourage short selling and encourage the development of confidence in higher prices. December wheat opened at 80c, just where it left off Saturday last. It advanced to 80%c. sold back fractionally and then advanced to 80%c. This gain was made while the visible supply figures were coming in. When the result was announced, making the de-crease greater than had been generally expected, the market broke to 801/00801/c but subsequent proceedings proved the back movement was made in order to get a better start, for the course of values during the last hour was upward. The advance was marked by growing excitement and heavy trading. Late cables were strong and more active among the large local traders, who were energetically on the long side. The market was unqualifiedly strong. From 80% to 80%c, December wheat pulled up a trifle and then moved quickly to 80%c. After a pause it jumped to 81%c, slid back to 80%@81c and then climbed to 81%c. There was a big fight and very beavy trading above 81c and a prodigious effort was made to break the market. The close was 81%c, or 1%c above Saturday. July opened at 83c, ranged to 83@83%c, and closed at 83%c, which was %c better than Saturday. There was hardly a trade in July the day. There was hardly a trade in July the last hour, the attention being largely concen-trated on December. There was considerable trading in September, however, with limits of 78\chi\_@79\chi\_@c. There was more or less activity for the cash wheat market here and elsewhere. The stuff is going into consump-tion rapidly. In New York July wheat ad-vanced sharply early, and held the improvement. Every where cash wheat was quota-bly higher, even in St. Louis, the hot bed of the bearishness. In this market an active inquiry for red winter wheat was noted, and negotiations are in progress involving good

The corn market was inactive, but in the face of the very favorable weather for the growing crop and the continued liberal re-ceipts, prices were from steady to firm. The principal cause of the firmness is to be found in the excellent consumptive demand at home and abroad, which slowly but surely lessens the available stocks. The fluctuations were narrow, with very little appearance of outsiders being heavily inter-ested. The New York market was quoted dull. The export clearances on Saturday were only moderate, and buying for export to-day was said to be slack. Prices closed fractionally higher than on Saturday, near by deliveries being rather firmer than the more deferred, and cash corn was bringing about \( \frac{1}{2} \end{array} \) premium over seller for the month. Onts were nearly stationary, with specula-tive transactions small at about previous There was a lack of outside trading figures. There was a lack of outside trading orders, and the tone was one of easiness. The increase in the visible supply of some 437,000 bushels was large, taking into consid-eration the fact that we are now at the end of the old crop, with a large yield promised at the coming harvest. There were buyers of July at 2234c, but a shade above was asked early, with September easy at 2234@2234c. The receipts of old oats were large, but so was the out inspection, with 220,500 bushels

In provisions the week opened without any promise of improvement. The weak tone witnessed lately was continued, and in the way of trading there was no increase of life. Operators of all classes were conservative to-day, and for cash and future delivery the to-ay, and for cash and future derivery the business transacted made quite a poor showing. The fluctuations were also confined to a small range, and at the adjournment prices showed but little change from Saturday's closing. Short ribs rested unchanged to 2½c better, lard 2½@5c higher, and pork from 2½c lower to 2½c higher.

### CHICAGO LIVE STOCK MARKET.

CHICAGO, July 8 .- [Special Telegram to THE BEE. |-CATTLE.-The eastern markets were reported active and 5@10c higher. Sellers here noting that the arrivals here were only about 9500 natives and 1500 Texans, "made a strong effort to effect at least a corresponding advance, but the buyers were afraid if they showed any disposition to operate freely the salesman would put prices above instructions, hence they moyed cautiously and with apparent indifference, and while paying possibly a shade stronger figures for something handy and desirable in the shipping steer branch, refused to submit to any improvements in values for heavy fat herds and the ordinary run of native sizers. On the contrary, as the day passed, the demand for anything aside from Texas light cattle and butcher stuff became so draggy that sellers were finally forced to grant concessions of 5@10c and even then all the heavy cattle were not disposed of. The limited supply of native butchering and canning grades, as well as Texans, forced the city butchers and canners to pay fully 5c over afraid if they showed any disposition to grades, as well as Texans, forced the city butchers and canners to pay fully 5c over last Saturday's market. As usual, on Monday, the stocker and feeder trade was in a lifeless condition, and the volume of business decidedly limited. Choice beeves, \$4.00@4.25; medium to good steers, 1550 to 1500 lbs, \$3.85@4.10; 1200 to 1350 lbs, \$3.75@4.00; 950 to 1200 lbs, \$3.40@3.80; stockers and feeders, \$2.10@3.15; cows, bulls and mixed, \$1.75@3.25; bulk, \$2.35@2.80; slop-fed steers, \$3.90@4.50; Texas cattle firm, quality poor, steers, \$2.75@3.45; cows, \$2.00@2.50.

Hoos—Activity and strength were the fea-

G3.45; cows. \$2.00@2.50.

Hoos—Activity and strength were the features of to-day's hog trade. The market pened and ruled throughout a shade higher on heavy and 5c better on light than on Saturday last, closing strong at an advance. Shippers, packers and speculators were liberal operators and light weights in particular met with a more healthy demand than for nearly a week past. In a general way, ordinary packing grades sold around \$4.35, while prime shaped up heavy, and butchers readily commanded \$4.37\(\frac{1}{2}\)\( \frac{1}{2}\)\( \

### FINANCIAL.

New York, July 8 .- [Special Telegram to THE BEE. |-STOCKS - There was some improvement in the feeling in stock circles over Sunday if current talk can be taken as an index. There was a rumor of a bull pool working St. Paul, Northwestern and other western stock. The assurances of the end of the rate troubles were discussed, and there was really a local bull sentiment be-

fore pusiness was resumed. This all vanished very quickly when trading began. The first figures throughout the entire list were lower, declines extending from 1/4 to 1/4 per cent. Selling orders were sent from London and Chicago. These set the tone of the early market, and prices further declined almost uniformly the first hour, and the losses extended to 114 per cent. Grangers were weak all around, with the most activity in St. Paul and the greatest weakness in Atchison, Rock Island and St. Paul. At 11 o'clock the net losses were: Atchison, 1 at 3714; Burlington, % at 9714; Northwestern, % at 105; Rock Island, 34 at 92; St. Paul, 134 at 66%; Missouri Pacific, % at 68%; Union Pacific, 134 at 5734; Lackawanna and Readlost 34 to 36 from Saturday. Lake Shore dropped 134 to 10034, and regained 34. New England went down 36 to 49, and Northern

Pacific preferred 1 per cent to 6314. Chicago Gas lost 14, Cottton Oil, 14: Sugar Trusts, 1%; Lead Trusts, 16. There was not a gain anywhere to redeem the list. After the morning hour there was a period of dullness

in stocks, followed later by still further declines, when Atchison touched 3636; Northwestern, 10414; St. Paul, 6614, and Union Pacific, 5614. Still later there were more authentic advices about the probable settlement of the rate troubles west of Chicago, and reaction took place through the entire list. Grangers rallied nearly 1 per cent, Burlington and Rock Island closing about as on Saturday, while Atchison was 3 lower at 37%, Northwestern, 14; St. Paul, 14, and Union Pacific, 134 off at 5734. There were no marked changes in trusts at the close. The total sales for the day were 289,406 shares, including Union Pacific, 23,000; St.

Paul. 56,000. The following were the closing quotations:

OMAHA LIVE STOCK.

Monday, July 8.

The receipts to-day consisted largely of steers and while a fair amount of trading was done the inclination of buyers was to lower prices. Handy beeves suitable for killing sold fairly steady, while heavier grades shaded downward about 5c. Butchers' catwas in light supply and sold steadily. One bunch of fine heavy steers sold at \$3.75% and some good corn-fed cows at \$3.15.

Hogs. There was nearly en average number of hogs here and the market opened strong at Saturday's closing prices. Later the trade weakened and buyers attempted to lower prices about 5 cents. Salesmen refused to sell at the decline and the receipts were finally taken at about morning prices.

Sheep. There were none here to make a market.

Receipts. Cattle.. .... 1,700 Hogs 5,700 Sheep 5,700 Prevailing Prices. The following is a table of prices paid in this market for the grades of stock men-tioned:

A DEMOCRATIC STILL BUNT. An Attempt to Be Made to Carry the

New States.

New York, July 8 .- | Special Telegram to The Ber. ]-The World says it can be stated on unquestioned authority that the democratic national committee does not intend to let the election in the four new northwest states go by default. The democratic national committee has decided to make a vigorous fight in all four of the new states. All the factions of the party are united on that point. The election comes off in October. Colonel Brice believes that two of the new states-Montana and Washington-can be landed in the democratic camp. When the democratic national committee met last month, the campaign in the northwest was discussed informally. Since then Colonel Brice has been in communication with the leading members of the committee. For obvious reasons the democrats do not propose to use any brass band in the contest. The battle will assume more the character of a still hunt on their side. The democrats will have trusted representatives in cerats will have trusted representatives in each of the states, and every inch of ground will be contested. A special agent of the committee will go to Montana some time this month and take charge of the preliminary survey of the field. He will also go to Washington and through the two Dakotas. About the 1st of September a special representative of the national committee will be sent to each state and remain until the elecsent to each state and remain until the election has been decided. The only difference of opinion that is said to exist among the nembers of the democratic committee is as o whether they shall make the fight in all four states, or concentrate their efforts to carrying Montana and Washington.

GENERAL GRANT'S SPIRIT. It Has Sent a Telegram From the

Other World. New York, July 8 .- | Special Telegram to THE BEE. |- Was General Grant a spiritualist is the question which a certain fold of spiritualists in this city have made conspicuous in the last few weeks through the medium of a publication called the Celestial City. The editor of the paper is Titus Merritt. "I have seen the general many times," he said last night, "at seances at the homes of Henry J. Newton and Mrs. Wells in this city. That was in 1884. He was accomanied on these occasions by his pastor, the Rev. Dr. J. H. Newman, who had not then been made bishop, and by a prominent official associated with Thomas A. Edison in his electric light company. Both General Grant and Dr. Newman were deeply interested in the spiritualistic phenomena. All spiritualists know that is the case, though Grant's pastor did not say any

thing about it in public."

Mr. Merritt went on to say that General
Grant, since his death, had suggested the
title Celestial City. The suggestion had
come direct from the general through the nedium of an occult telegraph instrument at found a slip of paper containing a question to the spirit of the general asking what would be the best title for such a newspaper. and an answer was clicked off by the key
